Henches		
ID	INTEGER	Key, Autoincrement
Firstname	VARCHAR	
Lastname	VARCHAR	
Secure Email	VARCHAR	
Secure Phone Number	VARCHAR	
Gender	VARCHAR	
Alignment	VARCHAR	

This is a table that lists contact info and personal information for henchmen and women looking to be hired by a supervillain.

Table of Aliases		
Hench ID	INTEGER	
Alias	VARCHAR	

This is a table that holds known aliases of criminal lackeys. They can have more than one alias, so it is a one-to-many relationship.

Master Table of Powers and Skills		
ID	INTEGER	Key, Autoincrement
Skills and powers	VARCHAR	

This table lists all the powers and skills it is possible to have.

Hench abilities		
Hench ID	INTEGER	
Power ID	INTEGER	

This is a relational table that shows which lackeys have which skills and abilities. It is a many to many relationship because many people can have the same skill, and one person can have many different skills.

Supervillains		
ID	INTEGER	Key, Autoincrement
Primary Alias	VARCHAR	
Preferred method of contact	VARCHAR	
Alignment	VARCHAR	

This table holds contact information for supervillains who want to hire lackeys. Their real names and contact info are secret so it is not part of this table.

Hirings		
Villain ID	INTEGER	
Hench ID	INTEGER	

This table keeps track of what lackeys are working for what supervillains. It is a one-to-many relationship because each lackey can only work for one villain but a villain needs lots of cannon fodder.
